Under the Weather?!?!

We have always asked that if your child is sick - please keep them home. If your child is running a fever or has a really bad cough/runny nose we ask that you keep them at home. We are trying to keep the spreading of germs limited. We know it's the season and some have allergies. But, if their eyes are watering and they are miserable please keep them home. We do offer the option to zoom during their class time. Just let us know and we are happy set it up for you!
